Claim Rejections - 35 USC § 102

1. Claims 1, 2, 8, 11-15, 17,18,19,22,23 are rejected under 35 U.S.C. 102(e) as being anticipated by Struble et al (6,122,545).

See previous office action.

Claim Rejections - 35 USC § 103

2. Claims 6,7,10,16,20,21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Struble et al (6,122,545) in view of Wickham (5,891,171).

See previous office action.

3. Claim 9 is rejected under 35 U.S.C. 103(a) as being unpatentable over Struble et al (6,122,545) in view of van Lake (5,653,737).

See previous office action.

Double Patenting

4. Claims 1,2,6-23 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claim1-24 of U.S. Patent No. 6,687,539. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the present application are considered to be an obvious variant of the claims of the parent patent.

5. Claims 1,2,6-23 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-7 of U.S. Patent No. 6,304,778.

Although the conflicting claims are not identical, they are not patentably distinct from each other because the claims of the present application are considered to be an obvious variant of the claims of the parent patent.

Applicant's remarks are unpersuasive. Struble is considered to teach blanking of any type of signal, see for example column 26 of Struble, where each channel of the four channels can have an individual blanking period programmed therein, and which are short compared to the CDW. Thus, signals from any chamber can be blanked in order to not interfere with the sensing done during the remainder of the particular CDW.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
